Laptop Drape

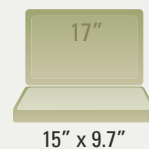

Protective Waterproof
Sterilizable Laptop Covers

A slick lightweight laptop sure makes working on the go easy. And wherever you're going, there's sure to be lots of dirt and bacteria ready to land on your unprotected keys. Even a quick spill of coffee could render that pricy machine useless. Which is exactly why we came up with the laptop drape. Designed to protect you and your machine from unsavory invasions of all kinds, the laptop drape is ideal for medical environments, construction sites, schools, airplanes and anywhere dust and germs congregate. Better to the touch than typical urethane covers, these strong silicone sheets wipe clean in an instant. What's more, they can be sterilized (in an autoclave) for the ultimate clean. Infection control was never so convenient! Available in 17", 15" widescreen, 15" standard, and 10" widescreen you can customize the drape by cutting with scissors.
