

Hygienic Keyboards & Mice

Keyboards So Clean People Can't Wait To Get Their Hands On Them

Man & Machine offers a complete range of cleanable keyboards and mice to accommodate varied medical environments and budgets. In fact, our products are used in many of the largest hospitals, laboratories and medical offices worldwide. Designed with you in mind, our peripherals enhance patient safety and infection control. All with features and options that anticipate your needs. Plus, the unsurpassed performance and reliability that allows us to provide the best warranties in the business.

- **WASHABLE & WATERPROOF**
- **INCREDIBLY DURABLE**
- **USED IN HOSPITALS WORLD WIDE**

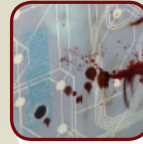

Our client list includes hundreds of Hospitals, Medical Offices & Laboratories Worldwide

The Problem with Most Keyboards

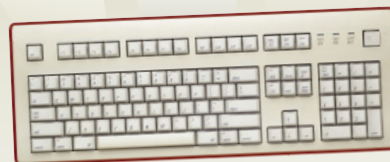

DIRT & GERMS

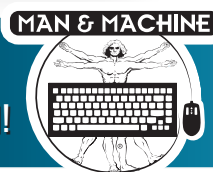

BLOOD & FLUIDS

BACTERIA & VIRUS

Most keyboards can't take the rigorous cleanings required to enhance patient safety and infection control. They have seams that allow liquid to penetrate and crevices where bacteria gather, creating a hazard for staff and patients.

Medical Keyboards & Mice

Premium Products

Our rugged, fully-sealed keyboards, with no moving parts to replace, set the gold standard for infection control.
