

Really Cool Touch

Premium Waterproof Disinfectable Keyboard With Touch Pad

When space is at a premium, the Really Cool Touch or Really Cool Touch BlueTooth is the answer. No mouse is required with these durable, sealed waterproof boards, giving you one less thing to clean and disinfect! You get the high-quality features of our finest submersible keyboard in a more compact format that fits where you need it. Ideal for medical environments of all kinds, Really Cool Touch & BT feature superior tactile feedback, quiet keys, and the outstanding reliability and performance of an MMI keyboard. Really CoolTouch & RCT BT are compatible with standard keyboard layouts. The Really CoolTouch can be fitted with our magnetic attachment system. The wired version can be upgraded with a 3-way backlight or our smart cable option for a cable length that fits your needs.
